

Ivan Cherednychok

Senior / Lead Mobile .NET Engineer · Kremenchuk, UA

12+ years shipping .NET mobile products for iOS and Android. I combine deep platform expertise with automation discipline — from CI/CD pipelines to AI-assisted delivery workflows — to keep release quality high and delivery predictable.

Open to senior remote roles · Remote-first. Onsite in Kremenchuk acceptable.

WORK

09:00–19:00 Kyiv time

Summary

12+ yrs

In .NET — services, desktop, mobile, build automation.

10+ yrs

iOS & Android in production — Xamarin, .NET MAUI, native integrations.

~100k

Engineering for products with a significant user base.

4.8★

Store rating on the current production app.

Selected roles

2022 — Now
3+ yrs

Forte Group

Senior Xamarin / MAUI Engineer · Remote · Ukraine

- Senior engineer on a mobile team shipping iOS and Android apps for a major US golf-tech platform — **100k+** users, **4.8+** store ratings.
- Led migration of the legacy Xamarin codebase to **.NET 8** for iOS and Android, including custom .NET bindings to third-party native SDKs.
- Helped the team adopt AI-assisted delivery — designed a set of sub-agents and reusable skills now in daily use by the full mobile team. In the pilot sprint, **80%** of tickets cleared QA on first review; a feature scoped at two months shipped in three weeks.

.NET 8 · .NET for iOS · .NET for Android · Xamarin · Azure Pipelines · NUnit

2018 — 2022
4 yrs

CoinPayments

Senior Mobile Engineer · Remote · Canada

- Four years on a Canadian crypto wallet product, most of that time as the sole mobile engineer responsible for both iOS and Android.
- Owned mobile end-to-end: planning, implementation, releases, and store publishing. The Android app grew to **~100,000** installs during my tenure.
- Shipped 2FA and biometric authentication to production — zero key-handling incidents across the full four years.
- Worked on the .NET MAUI migration.

Xamarin.Forms · C# · SQLite · AppCenter · Azure Pipelines

2013 — 2018
5 yrs

AltexSoft

Xamarin Software Engineer · Kharkiv · Remote

- Started on the .NET backend and desktop side (ASP.NET, WPF, WCF), then moved into Xamarin mobile delivery across travel, sports, retail, finance, and compliance products.
- Team Lead on two projects (teams of 3–6 devs); onboarded new hires moving from the .NET backend into mobile development.
- Built out CI/CD with TeamCity and Cake — moved the team from manual, per-developer builds to automated pipelines at a time when the industry hadn't made that shift yet.

Xamarin.iOS · Xamarin.Android · Xamarin.Forms · .NET · TeamCity · Cake

Skills & tools

MOBILE

iOS, Android (10+ years in production)
Xamarin.Native, Xamarin.Forms, .NET MAUI
.NET for iOS, .NET for Android
Custom native SDK bindings (iOS + Android)
MVVM, reactive patterns, offline-first, push, biometrics, 2FA

.NET PLATFORM

C#, .NET 8, .NET Framework
ASP.NET, WPF, XAML
SQLite, T-SQL, REST

AI-ASSISTED DELIVERY

Claude + Codex agent pipelines
Sub-agent and reusable-skill design
Team-wide agentic-coding workflow adoption

CI/CD & AUTOMATION

Azure Pipelines, TeamCity, Jenkins, AppCenter, Forgejo Actions
Cake, Bash, Python
NUnit, Xamarin UI Tests

INFRASTRUCTURE

Proxmox VE, QEMU/KVM, VFIO passthrough
Docker, Docker Compose, Portainer
Grafana, Loki, Alloy
Tailscale mesh VPN, NFS, Samba
Linux administration (Debian family)

PRACTICES

SOLID, GoF patterns, Clean Architecture
Scrum / Kanban, code review, mentoring
Full-cycle ownership

Projects

Homelab & self-hosted infra

INFRASTRUCTURE

Proxmox, Docker, Grafana/Loki monitoring, Forgejo Actions CI/CD and Cloudflare Pages deploys — where I test delivery pipelines I'd want to run at work, on hardware I own.

Stoik Visnyk · Telegram bot

SIDE PROJECT

A daily Stoic reading bot in Ukrainian. Small, shipped to real users.

Education & languages

EDUCATION

Master's degree, Computer Science

Kremenchuk University of Economics, Information Technology and Management
2008 – 2013

LANGUAGES

Ukrainian · native

English · full professional working proficiency
